Lille and its metropolitan area

LABELLED BREWERIES

At the end of February 2023, the Héritage Bière brewery tourism label was officially launched, the first of its kind in France! The region is home to 35 craft breweries, where beer and its know-how are an integral part of the local culture. This label is designed to help travellers discover the metropolitan destination and its unique brewing culture.

This label focuses on the quality of the overall tourism experience, not on the quality of the welcome provided at each level of certification.

- Reception and Boutique:** Customers receive advice from a knowledgeable beer professional who is able to share his or her brewing culture in a standardised establishment.
- Visit and Tasting:** The ultimate brewing experience to discover or rediscover the diversity of beer through immersion in taste and culture.
- The Tap Room:** A bar... yes, but located directly in the brewery, where you can taste the brew produced live in a convivial setting.

These three levels of accreditation have a number of criteria in common: quality of welcome, quality of communication tools, cleanliness of premises, fixed opening hours during the week and at weekends, promotion of reasonable and responsible alcohol consumption, participation by the brewer in the brewery tourism network, etc. and of course specific criteria for the 3 types of accreditation.

There are currently 30 to 40 criteria to be met. These are assessed by an external, independent auditing firm, as is the case for major wine destinations. As a result, 18 breweries have been awarded the label.

BREWERIES
